

## ALL TERRAIN SERIES | PREMIER OUTDOOR TOWER SPEAKER

### AT63QTi

The new James Loudspeaker AT63QTi is a high-performance satellite speaker designed to deliver concert-level performance outdoors.

- Quad tweeter array for wide dispersion and crisp fidelity
- Marine grade aluminum construction with fluoropolymer coating for solid, secure and long-lasting performance
- Low impedance or 70V configurations
- Flexible installation for landscape (AT63QTi-IM: Internal Mount) or hardscape (AT63QTi-EM: External Mount) with easy access in-field servicing through the grille
- Designed and tested for effortless high SPL playback over extended periods of time
- 10 standard finishes (infinite custom finishes available)
- Custom James Loudspeaker wiring harnesses available
