

## ALL TERRAIN SERIES | PREMIER OUTDOOR TOWER SPEAKER

### AT85QTi-BA

The new James Loudspeaker AT85QTi-BA is a high-performance tower speaker designed to deliver concert-level performance outdoors.

- Quad tweeter array for wide dispersion and crisp fidelity
- Biamped, sealed bass enclosure for smooth and powerful bass response
- Marine grade aluminum construction with fluoropolymer coating for solid, secure and long-lasting performance
- Low impedance or 70V configurations
- Flexible installation for landscape (AT85QTi-BA-IM: Internal Mount) or hardscape (AT85QTi-BA-EM: External Mount) with easy access in-field servicing through the grille
- Designed and tested for effortless high SPL playback over extended periods of time
- 10 standard finishes (infinite custom finishes available)
- Custom James Loudspeaker wiring harnesses available
